PUBLIC WORKS TECHNOLOGIST

The Municipality of Bluewater is seeking a self-motivated and team-oriented individual with excellent interpersonal, communication and organizational skills who is willing to work with a progressive municipality to fulfill the position of Public Works Technologist.

POSITION SUMMARY

Reporting to the Manager of Public Works, the Public Works Technologist is responsible for assisting with asset management and financial planning for storm drainage, sanitary sewer, municipal potable water, roads, bridges and culverts, street lights, landfill sites, municipal drains, and other municipal infrastructure.

QUALIFICATIONS

- Community College diploma in Civil Engineering Technology or a University degree in Civil Engineering is an asset.
- A working understanding of municipal public works, including municipal drains and associated legislation an asset.
- Experience using Civil 3D Software to prepare/review designs for Public Works projects based on municipal and provincial standards and best practice engineering principals.
- Able to review detailed construction and contract documents and tender packages and able to assist with technical review of proposed developments and site plans.
- Able to perform topographic survey and construction layout using Total Station and GPS survey equipment.
- Required computer skills include ESRI ArcGIS and Microsoft Office. Experience with AutoCad, Civil 3d and work management/asset management software is considered an asset.
- Experience working in a municipal environment will be considered an asset.
- Minimum of 3 years’ experience considered an asset.

A criminal background check must be provided by date of employment.
