

Employment Opportunity Notice EX21-203

The City of Greater Sudbury

requires a

Traffic and Transportation Technologist Reporting Location: Frobisher Depot

**Permanent Position
70 Hours Bi-Weekly**

Start Date to Follow Selection Process

The Transportation Services Section, Infrastructure Capital Planning Division, Growth and Infrastructure Department of the City of Greater Sudbury, requires a Traffic and Transportation Technologist. The successful candidate must possess the qualifications and perform the duties, as set out below. The current range of pay for this position is \$30.75 to \$38.79 per hour (range in effect April 1, 2021).

Duties: Under the general supervision of the Traffic and Asset Management Supervisor.

1. Design and prepare specifications and estimates for the construction or upgrading of all traffic control devices.
2. Gather information and assist in producing forecast analysis relating to the construction of new and upgraded roadways.
3. Assist in the administration of CGS's Traffic Signal Maintenance Contract.
4. Conduct long and short range transportation planning studies as directed.
5. Conduct technical evaluations related to types of traffic control (i.e. signal timing, progressive systems, capacity and collision analysis, trip generation analysis and other traffic operational studies) and program traffic control devices.
6. Design and prepare signal layout drawings, prepare request for surveys and work with draftspersons in the preparation of traffic signal plant drawings.
7. Develop, utilize, maintain and/or oversee data collection and analysis program required for various planning, operational, construction and/or maintenance activities (e.g. collision retrieval, collision analysis, transportation model, asset management, capacity analysis, traffic volume, traffic signal optimization). Assist in the interpretation and evaluation of the output.
8. Keep abreast of new technologies, studies and programs in the traffic and transportation field and evaluate them for implementation into the Sections work program.
9. Investigate complaints and enquiries, supplying information directly to the public, staff and other agencies.
10. Provide information, advice and recommendations pertaining to traffic and transportation issues to the general public and for reports to other Departments, Committees and Council.
11. Approve and issue various special permits as set out in the By-laws (e.g. Wide Load, Special Occasion, Temporary Street Closure, Sidewalk Café, etc.).

**Employment Opportunity EX21-203
Traffic and Transportation Technologist
(Permanent Position)**

12. Organize and/or conduct data collection projects/studies; tabulate, summarize, analyze and report on data collection and provide recommendations.
13. Review building permit applications and access control applications for compliance to standard guidelines.
14. Provide comments and recommendations regarding traffic and transportation operation in relation to Subdivision Agreements, Official Plan Amendments, Consent and Committee of Adjustment Applications, Site Plan Control Agreements, Building Permits and Re-zoning applications. Assist in reviewing traffic impact and transportation studies submitted by engineering consultants.
15. Participate on various committees and community projects to evaluate road safety programs and initiatives as required.
16. Provide support to the Emergency Operations Centre (EOC) on a 24/7 basis as required, in the event of a declared emergency or disaster.
17. Develop and maintain a thorough working knowledge of CGS's Safety Manual and the applicable Provincial Legislation listed therein.
18. Perform other related duties as required.
