

Asset Data Collection and Condition Evaluation

DATE: April 24 – 28, 2017
COURSE CODE: AMAM04-17
LOCATION: Mississauga, ON
FEE: \$1,800

Effective management of public assets relies on instant access to detailed information about their history, location and current condition. This course investigates the data that is required by asset type, various methods for collecting and organizing data into logical categories, and maintaining the data over the life of an asset. Methods for determining the condition of several asset types and assigning a rating will also be covered.

Course Content

- Determining asset types
- Assigning categories of assets
- Identifying data gaps
- Traditional versus mobile data collection
- Integration with web-based data management systems
- Subjective versus objective asset condition evaluation
- Condition rating systems
- Legislated inspections
- Maintenance of asset records

Who Should Attend

Middle and senior managers with responsibility for the management of municipal public assets.

Format

In-class case studies, individual assignments and group assignments will reinforce the reading, presentations, and class material.

Evaluation

Overall grade of 65%
